

New Staff

Pickford Builders Insurance works department has been recently boosted by two new Surveyor/Managers joining our team. Les Davidson and Adrian Clarke will be working alongside Carl Finbow to oversee our repair projects in Essex and Suffolk.

Insurance

Our Insurance Department has seen a steady stream of works in the areas we traditionally cover and is also responding to new coverage in the Ipswich town center postcode. Our works have also seen a venturing into the Norwich postcodes, where we have been invited by our Insurance network partners to target specific projects.

Contracts

To deal with the volumes of work coming into the insurance side, our Contracts team have completed a number of these projects which include properties that have suffered fire, escape of water and impact incidents.

Alongside this the general building works continue and currently include a large new build house, external repairs/re-decoration to a house in Great Easton and the improvements to bedroom, bathrooms, windows doors and cladding on a cottage near Pleshey.

We were also pleased to be able to provide the new memorial wall at Rayne Church (All Saints). This entailed building a wall in purpose made bricks to a curved shape and to match an older wall in the grounds of the church.
